

WHERE COMPASSION, CONNECTION
& CLINICAL EXCELLENCE COME TOGETHER

healing begins.

Our Philosophy

Founder Glenn Cohen shaped
Beach House around one simple truth:

*“The opposite of addiction is love and connection.
Sobriety is a byproduct of living a loving and connected life.”*

This belief drives our focus on helping patients reconnect with themselves, their loved ones, their community, and their sense of purpose. Many staff are alumni or in recovery themselves, offering firsthand understanding and compassion.

The Treatment

Beach House is a nationally recognized provider of care for addiction and mental health. Treatment blends individual and group therapy along with evidence-based modalities such as CBT, DBT, and trauma-informed care. The levels of care we offer are:

- Medically Managed Detox
- Residential In-Patient Treatment
- Continued Care with Partial Hospitalization (PHP) and Intensive Outpatient (IOP)

What to Expect in Detox

Patients in need of this level of care can expect a safe and comfortable transition supported by:

- Around-the-clock medical management of withdrawal symptoms
- Medication assistance when appropriate
- Accommodations designed for rest and recovery
- Compassionate staff available 24/7 for support and hospitality

Clinical Excellence

With an exceptional clinician to patient ratio, Beach House delivers treatment that is both highly personalized and comprehensive. Every aspect is designed to promote safety, consistency, and the highest standards of clinical excellence, giving each individual the best opportunity for lasting recovery and improved mental wellness.

Our Joint Commission Accredited status supports this, a recognition awarded to healthcare organizations that meet rigorous national standards of quality and safety. This reflects our commitment to providing effective, compassionate care and upholding the highest level of trust in all that we do.

Campus

Surrounded by natural beauty, our state-of-the-art campus setting fosters peace and healing. Every detail is designed to encourage rest, reflection, and overall mental wellness with the following:

- Private and semi-private rooms, each with their own bathroom for comfort and privacy.
- Modern living spaces designed to encourage community support.
- Gender-specific accommodations provide a safe and supportive environment.

Healing goes beyond clinical care. We've intentionally built holistic offerings & amenities designed to restore peace of mind, strengthen the body & nurture the spirit.

Amenities

- Sunrise beach meditations to begin the day with peace & clarity
- Fully equipped, modern on-site fitness center
- Weekly acupuncture, massage, and chiropractic care
- Biosound Biobed Therapy to calm the nervous system
- Yoga and yin yoga classes led by an experienced instructor
- Nutritious meals prepared daily by our in-house chef
- A sparkling pool and peaceful outdoor spaces to unwind
- A business center for those who need to stay connected
